IMAGING AND INTERVENTION

Aims and Scope

Imaging and Intervention (Imaging Interv) is an international, scientific, open-access periodical published in accordance with independent, unbiased, and double-blinded peer-review principles. It is an online-only journal, published triannually in April, August, and December. The publication language of the journal is English.

The aim of the journal is to publish original research papers of the highest scientific and clinical value in all fields of radiology and related disciplines. Imaging and Intervention also publishes reviews, rare case report and letters to the editors.

The scope of the journal is multidisciplinary, representing all topics related to diagnostic radiology and related subspecialties, vascular and interventional radiology, and endovascular surgery.

The journal's target audience includes healthcare professionals, physicians, and researchers who are interested or working in all fields of diagnostic and interventional radiology and related subspecialties.

Imaging and Intervention is indexed in China National Knowledge Infrastructure (CNKI).

The editorial and publication processes of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The journal is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing (doaj.org/bestpractice).

Publication Fee Policy

Processing and publication are free of charge with the journal. No fees are requested from the authors at any point throughout the evaluation and publication process. All manuscripts must be submitted via the online submission system, which is available at <https://imgint.manuscriptmanager.net>. The journal guidelines, technical information, and the required forms are available on the journal's web page.

Advertisement Policy

Imaging and Intervention can publish advertisement images in the journal's website upon the approval of the Editor in Chief. Potential advertisers should contact the Editorial Office. Advertisers have no effect on the editorial decisions or advertising policies.

Disclaimer

Statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the opinions of the editors, the editorial board, and/or publisher. The editors, editorial board, and publisher disclaim any responsibility or liability for such materials.

Open Access Statement

Imaging and Intervention is an open access publication, and the journal's publication model is based on Budapest Open Access Initiative (BOAI) declaration. All published content is available online, free of charge at www.imaging-interv.org. Authors retain the copyright of their published work in the Imaging and Intervention. The journal's content is licensed under a Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License which permits third parties to share and adapt the content for non-commercial purposes by giving the appropriate credit to the original work.

You can find the current version of the Instructions to Authors at: <https://imaging-interv.org/en/for-authors-105>.
